Take Care Of Your Life With Casa

When hands connect with earth and soil, they rekindle the profound bond we share with nature. Unique sensations emerge, unlocking creativity through meticulous craftsmanship. Paired with the refined elegance of stone, These sensations give rise to a new material that allows designers to express themselves freely and naturally.

This material, inspired by the diverse colors of the earth, embodies a design philosophy that harmonizes variety and organic form, embracing limitless expression.

Introducing
**Diesel
Collection** by
Casa

Diesel offers an exceptional homogeneous surface that brings a distinct charm to interiors and architecture. This collection empowers creativity, allowing designers to explore and experiment with their ideas in exciting and innovative ways.

Reshaping Spectrums

Diesel was born from the inspiration to create a symbiosis between nature and stone, a primitive element and a refined stone.

Natural materials that enrich each other, brought together by the craftsmanship of the designer searching for a new kind of surface.

- 

Easy to maintain
- 

Resistant to chemicals
- 

Resistant to acids
- 

UV Resistant
- 

Resistant to thermal shock
- 

Scratch resistant
- 

Easy to clean
- 

Frost resistant
- 

Waterproof
- 

Stain resistant

The 9mm thickness of the collection provides exceptional durability and resilience, making the surfaces highly capable of withstanding heavy traffic, weight, and rugged use. This robust thickness ensures the surfaces are ideal for a wide range of applications. Additionally, anti-skid feature enhances safety, making these surfaces particularly suitable for any environments.
