ARCHITECTURAL PHILOSOPHY

Palladio Legacy – Elevating Spaces with Renaissance Elegance and Unmatched Structural Strength.

A visionary of the Italian Renaissance, revolutionized architecture with his emphasis on symmetry, proportion, and classical elements. His designs, inspired by ancient Roman temples, shaped European architecture for centuries, blending functionality with elegance.

His principles—harmonious proportions, grand yet simplistic facades, and the use of durable materials—inspire our Peladium Collection. CASA's full-body tiles reflect his legacy, offering timeless designs, natural stone textures, and unmatched strength, perfect for modern architectural excellence.

WHY THIS COLLECTION?

It blends **dotted elegance, a refined polished finish, and superior strength,** creating a timeless and durable surface for modern architecture.

The Peladium Collection embodies elegance with its dotted design and polished finish, creating a refined yet durable surface. Inspired by Palladio's timeless aesthetics, it seamlessly enhances modern architectural spaces with sophistication.

Available in six exquisite colors, each shade is meticulously crafted to offer depth and character. The 600x1200mm full-body tiles provide versatility, making them ideal for floors and walls in both residential and commercial spaces.

With exceptional strength and lasting durability, this collection ensures resilience against wear while maintaining its luxurious appeal. A perfect fusion of artistry and functionality, redefining contemporary design.

Timeless

A person's hands are shown from the side, holding a large, billowing cloud of fine white powder. The powder is suspended in the air, creating a soft, ethereal glow against the dark background. The hands are positioned on the right side of the frame, with the fingers slightly curled as if supporting the cloud. The lighting is dramatic, highlighting the texture of the powder and the skin of the hands.

Raw to Refined

Mix of minerals & natural raw materials, combined with an exclusive blend of craftsmanship and exclusive technologies.

AUTHENTIC FULLBODY

A harmonious blend of minerals and natural raw materials, crafted with precision to ensure durability and timeless elegance. Each piece embodies the perfect fusion of artisanal expertise and advanced technology.

Designed for those who appreciate authenticity, our full-body tiles offer unmatched strength and depth. The color runs through the entire body, ensuring lasting beauty and resilience.

genuine

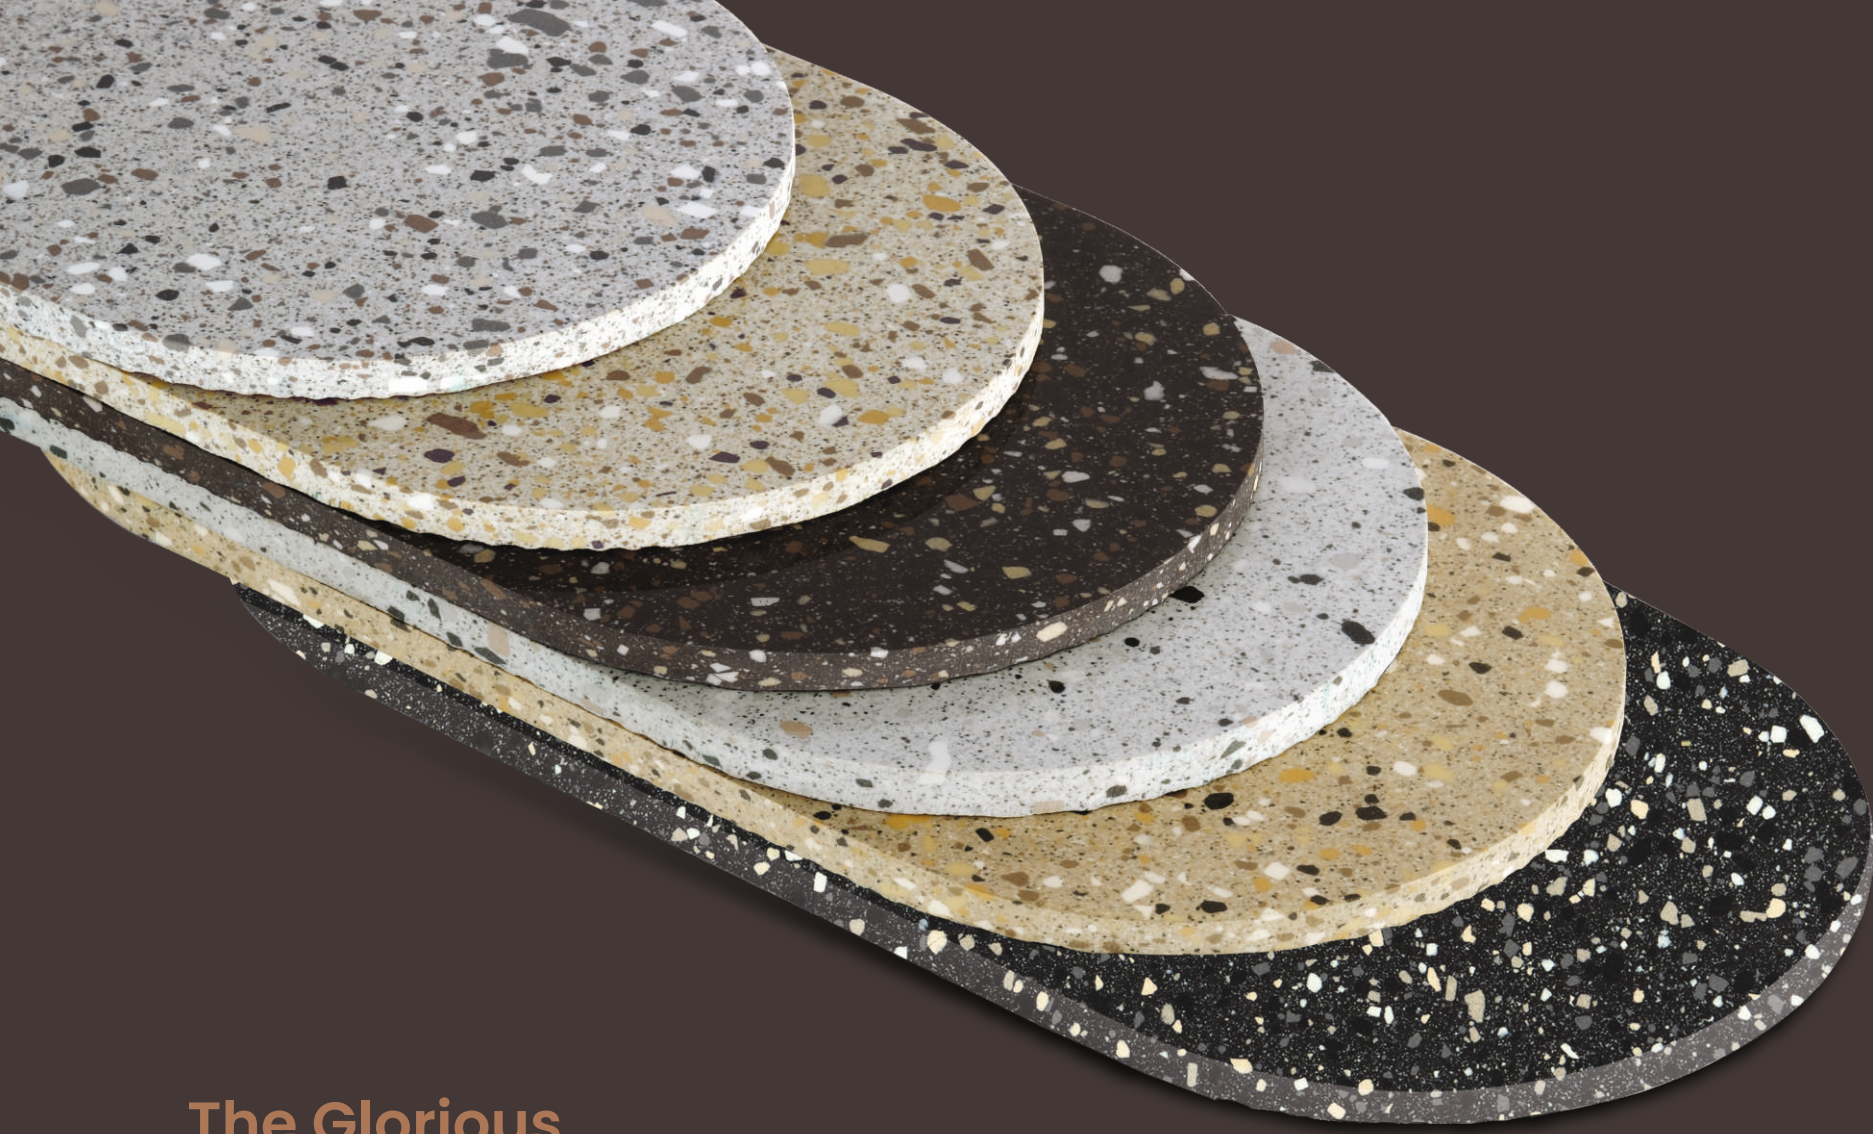

Authentic Full body

Full-body tiles are crafted from a homogeneous material, ensuring uniformity throughout their entire structure. Their composition remains consistent from the surface to the core, providing exceptional durability and strength.

Unlike standard tiles, these solid tiles have no distinction between the outer layer and the inner core. This makes them highly resistant to wear, ensuring long-lasting beauty and performance.

Made with interpenetrating mixes of different colors, full-body tiles offer a natural, elegant look. Their consistent composition makes them ideal for high-traffic areas, combining aesthetics with unmatched resilience.

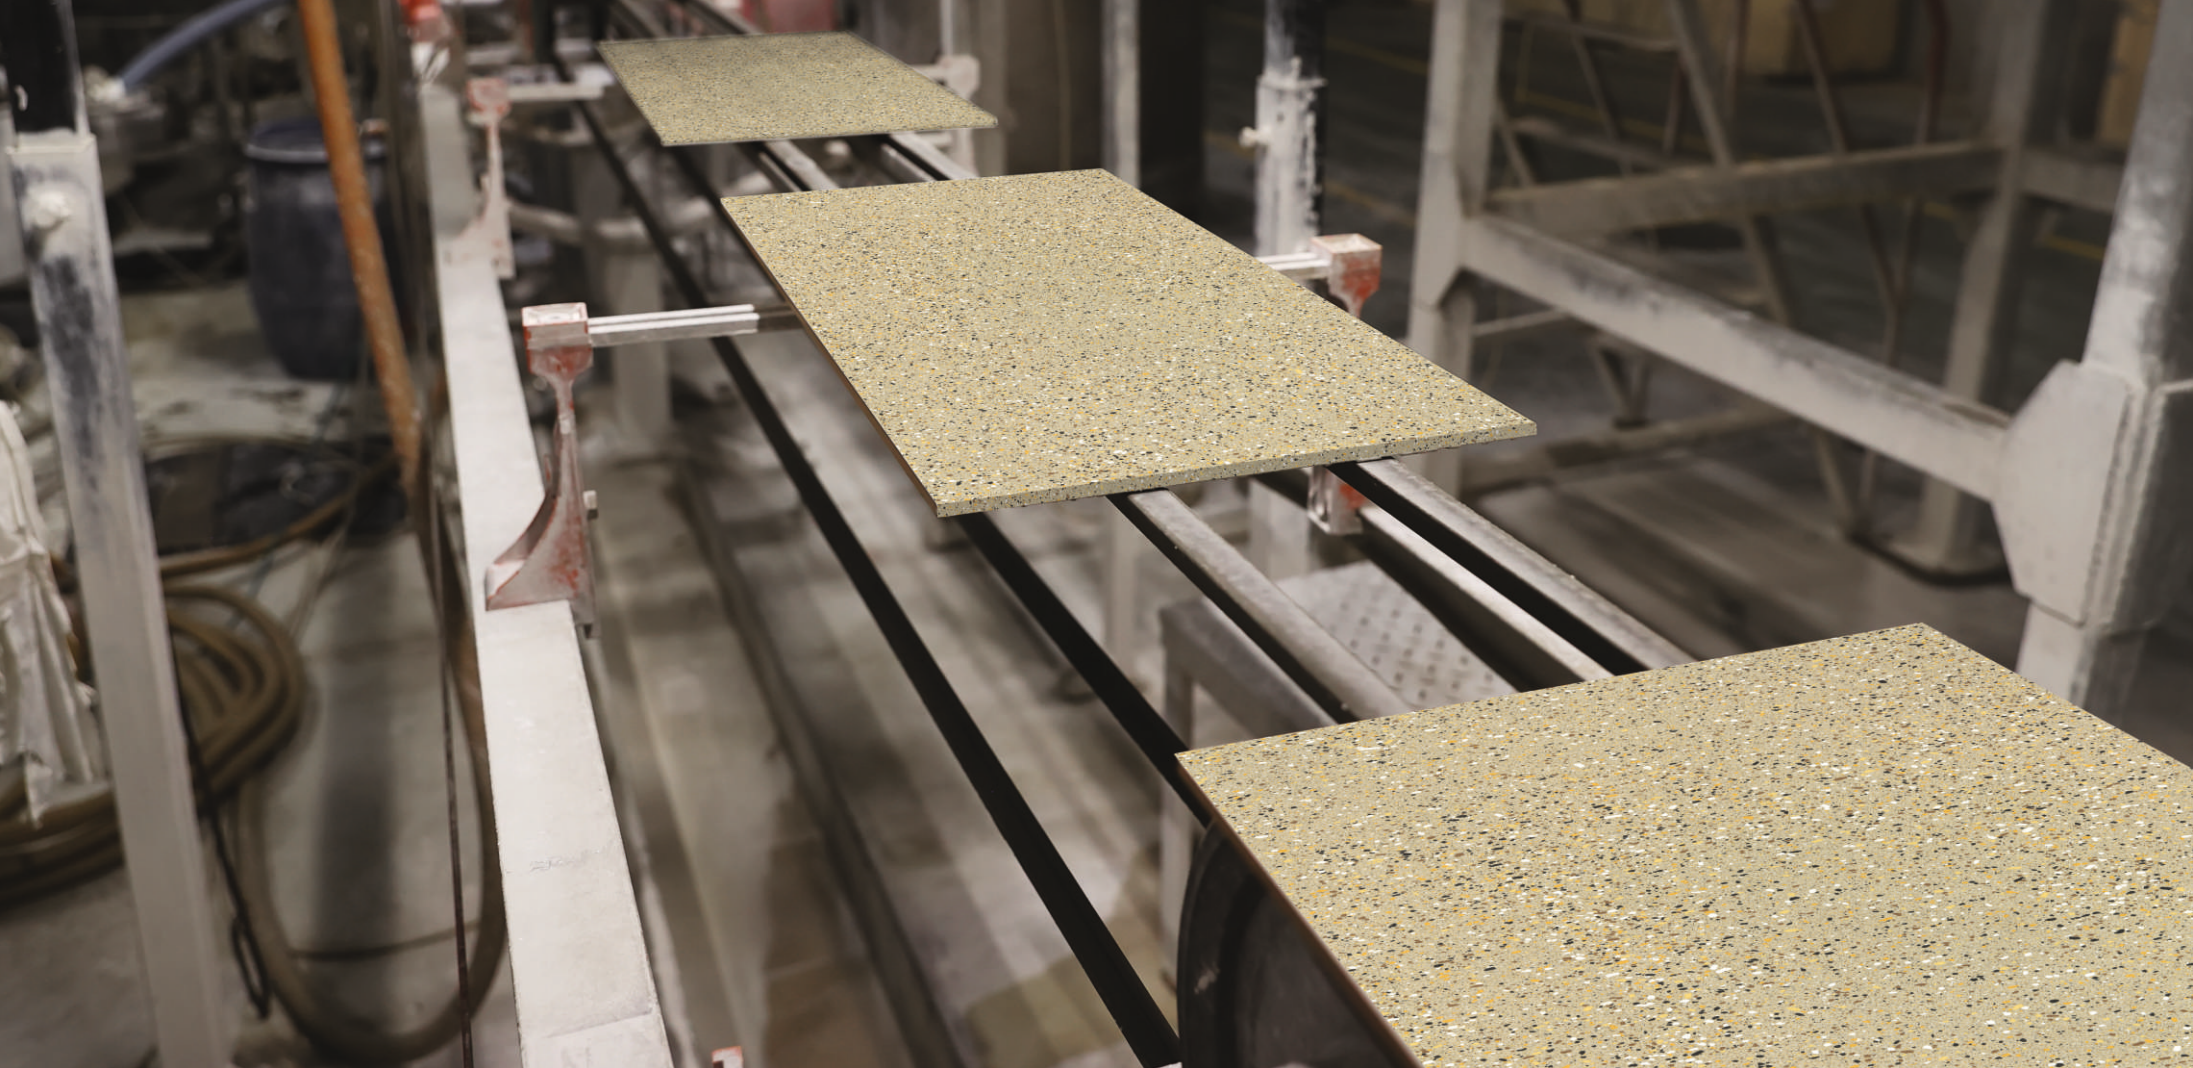

The Glorious Shades Made To Captivate

Crafted to blend seamlessly into any space, these full-body tiles come in six stunning shades, each designed to complement every ambiance with timeless elegance. Their rich tones enhance interiors, creating a perfect harmony of style and sophistication.

Whether you prefer classic charm or modern minimalism, these versatile shades cater to every taste. With durability and beauty combined, they transform any space into a masterpiece, making every step a statement of perfection.

Sensational Shades

Advanced machinery and rigorous quality checks ensure precision, consistency, and excellence in every tile.

From the finest raw materials to the final masterpiece, every tile undergoes a meticulous process. Advanced machinery and expert craftsmanship come together to shape durability and perfection.

Our state-of-the-art technology ensures consistency, strength, and aesthetic excellence. Each tile reflects a seamless blend of innovation and tradition, bringing timeless quality to every space.

4 actions

ANTI-BACTERIAL

Designed for hygiene and safety, it feature advanced antimicrobial properties, resisting bacteria and mold growth while ensuring a cleaner & healthier surface.

Built to endure varying temperatures and humidity levels, these tiles resist expansion, contraction, and moisture absorption. They remain stable in different climates, preventing cracks or warping over time. This makes them perfect for both indoor and outdoor applications, ensuring long-term reliability.

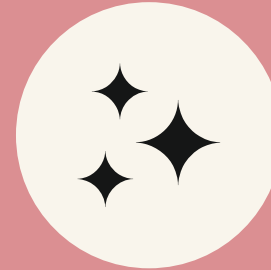

ANTI-POLLUTION

Crafted through a sustainable process with eco-friendly materials, it actively reduce pollution, promoting cleaner air and a healthier environment.

Crafted for resilience, these tiles are designed to withstand heavy foot traffic and daily wear. Their robust composition ensures long-lasting performance, making them an ideal choice for both residential and commercial spaces. With superior impact resistance, they maintain their elegance for years.

EASY TO CLEAN

Designed for convenience, these tiles resist stains and dirt, making cleaning effortless while maintaining their pristine look with minimal effort & long-lasting shine.

Designed to retain their beauty, these tiles resist fading from sunlight and scratches from daily use. Their protective layer preserves the surface, ensuring vibrant colors and a flawless finish, even in high-use areas, keeping spaces looking fresh and sophisticated.

ANTI-ODOUR

These tiles prevent odor absorption, keeping spaces fresh and hygienic while ensuring a clean and pleasant environment every day.

Engineered for safety, these tiles provide excellent grip, reducing the risk of slips and falls. Their specialized texture enhances stability, making them perfect for wet and high-traffic areas. Whether in homes or public spaces, they offer a secure and stylish flooring solution.

Unmatched Attributes

PELADIUM

Safe & Sanitizable. Forever

CERAMIC AND HIGH-QUALITY PORCELAIN STONEWARE WITH
THE SAFEST AND MOST HYGIENIC SURFACES.

Nature, technology, science, and design.

We combine above elements to create high-quality ceramic surfaces are compact and waterproof because they are made from pure minerals, pressed and sintered at over 1200°C.

The best choice for durability, safety, hygiene, and beauty.

Blending nature, technology, science, and design, we create ceramic surfaces that redefine excellence. Inspired by natural elements and perfected through advanced techniques, our tiles bring harmony and functionality together, ensuring a seamless balance between aesthetics and performance in every space.

Crafted from pure minerals, our tiles undergo high-pressure pressing and sintering at over 1200°C. This process results in compact, waterproof surfaces that offer unmatched durability and strength. Resistant to wear and environmental factors, they provide a long-lasting solution for modern living and commercial spaces.

More than just surfaces, our tiles embody durability, safety, hygiene, and beauty. Their non-porous structure prevents moisture absorption, ensuring a cleaner, healthier environment. Designed to withstand time and trends, they enhance interiors with elegance, making them the ideal choice for both practicality and style.

NO HAVENS FOR DIRT AND BACTERIA

Engineered for hygiene, these tiles resist bacteria and repel dirt, ensuring a cleaner, healthier space.

SANITISABLE WITH STEAM, WASHABLE WITH A POWER SWEEPER

Its non-porous surface ensures deep cleaning without damage and easy to sanitize with steam.

ZERO HARMFUL SUBSTANCES

Free from toxic emissions & harmful chemicals, they promote better indoor air quality and sustainable living.

RESISTANCE TO HEAT AND FIRE

These tiles are heat and fire-resistant, ensuring safety, durability, and protection in any space.

ENERGETIC CLEAN PRODUCTS? NO PROBLEM

Resistant to harsh cleaning chemicals, these tiles maintain their durability, finish, and hygiene without any damage.

OUTSTANDING DURABILITY

Built to last, these tiles offer outstanding durability, resisting wear, impact, and daily stress effortlessly.

MORE ECOLOGICAL

Made with sustainable processes and natural materials, these tiles are ecological, promoting a greener environment.

NATURAL TEXTURES WITH MULTIPLE RANDOMS

We have great number of random designs with natural stone based texture that give raw stone vibes.
